

The District of Mackenzie has entered into a partnership agreement with CityWest, an Internet service provider, to bring fibre-optic services to Mackenzie! This project will bring you urban-class connectivity through a fully fibre-optic network. Join hundreds of Mackenzie residents that have already signed up for CityWest fibre-optics. We're continually installing and bringing more residents and businesses online with a superior experience.

CityWest is a municipally owned telecommunications company from Prince Rupert, delivering reliable internet, TV, and phone services across B.C for over 100 years. The project will resume this Spring, with more customers getting access to this improved service! The newly built network will be real fibre-optic all the way to your door. And since it's buried underground, you won't be impacted by storms or trees falling on telephone poles.

Thanks to our partnership with the District, a portion of CityWest profits in Mackenzie go back into your community - your subscription helps Mackenzie thrive! CityWest and the District of Mackenzie are working on a plan to extend fibre services to the Gantahaz subdivision.

SIGN UP TODAY

Enjoy 50% off Internet for 6 months when you pre-sign!

To get these services, you will require an underground "drop". A drop is the last-mile fibre-optic cable that will be buried in an underground conduit to your home or business. If you sign up for a drop before construction arrives in your neighbourhood, **you'll receive it free, with no obligation to take services.**

Fill out the form at www.citywest.ca/mackenzie to get a free drop to your property or pre-sign today to take advantage of this limited time offer. You'll get faster, more reliable services backed by CityWest's exceptional customer service.

OR complete & return form below.

CityWest is dropping in to Mackenzie!

CityWest has partnered with the District of Mackenzie to bring you fibre-optic Internet, TV, and phone services! As part of the construction phase of our projects, we will need to install an underground "drop" – which is a buried fibre-optic cable that runs from the street to your premises.

If you would like to grant permission to CityWest and its contractors to perform underground work on your property, please fill in the form below. We will be undertaking some trenching work on your property to reach your home from the street. Once we complete the work, we will return all ground disturbances in your lawns and/or gardens back to good condition.

When you get a drop, you are not under any obligation to subscribe to CityWest services now or in the future. If you decide later that you would like a drop installed after the initial stages of construction, there will be an additional construction charge.

REGISTRATION FORM

Name (First/Last) _____ Email _____

Phone _____ Street Address _____

(Note: PO Boxes are not accepted and Multiple Properties each need a form filled out)

City _____ Postal Code _____

☐ I grant permission to CityWest or a designated affiliate to enter my property. By checking this box, I also confirm that I am the homeowner of this property. I also understand that this authorization does not commit the property owner to accept CityWest services beyond the installation of the drop.

Any additional comments you would like to notify us of pre-existing damage or special considerations (such as sprinklers, etc.)?

Please mail or drop off completed forms to the
District of Mackenzie office at:
P.O. Bag 340
1 Mackenzie Boulevard, Mackenzie, BC
V0J 2C0
